

*That Special Look At a
More Affordable Price.*

Contractors have come to appreciate Pro Cast Stone's ease of installation. The product is known for being quick and easy to install since it is produced in custom colors and blends. No additional footings, foundations or wall ties are required; and the veneer can be installed over many types of substrates. As a result, the costs surrounding Pro Cast Stone are much less than those associated with a natural stone product, and these savings can be passed along to the customer.

The product comes in a vast array of variations to achieve custom looks, so the contractor is able to fulfill the needs of even the most demanding business and residential clients. Pro Cast Stone also meets the most stringent codes, a fact that protects architects, contractors and their clients alike. Contractors and do-it-yourself homeowners will find Pro Cast Stone's detailed website, www.procaststoneveneer.com, especially helpful, thanks to its easy-to-follow installation instructions.

*Nature Enhanced Stone
Without The Cost*

Pro Cast Stone veneer specialists utilize the latest technological methods to enhance the strength, stability and beauty of natural stone. Our impressive stone veneer systems are designed to create realistic and beautiful stone finishes with exceptional durability for both the interior and exterior of homes and businesses alike.

Builders appreciate Pro Cast Stone's long-lasting and virtually maintenance-

free performance. They prize Pro Cast Stone for its ease of installation and the superb finished look it provides for their customers.

*The Natural Look of Stone
for Your Building Needs.*

Highlight a building's beauty with the timeless look of distinction that comes from our impressive natural-looking products. Combining the best qualities of natural stone with today's technology, Pro Cast Stone has created a unique stone veneer product for the building industry that gives buildings the highly durable character and value of natural stone for many years to come...but, at a fraction of the price.

Standing the Test of Time.

Pro Cast Stone's natural look and feel have become a signature complement to the architectural details of buildings throughout the Midwest. Whether the buildings feature brick, stucco, cedar or vinyl siding materials, Pro Cast Stone blends in beautifully and enriches the overall look of the building's exterior or interior. The stones, which are highly durable and color-fast, come in carefully selected, pre-shaped sizes that are available in unique colors and blends.

Our stone veneers can be used on walls, entryways, houses, buildings, fireplaces, outdoor living areas, around pools, retaining walls and many other places. No matter the location, styling a commercial building or residence with our stone veneer gives that structure a special beauty that lasts, a beauty people will appreciate for many years to come.

Pro Cast Stone offers a variety of accessories in four complimentary colors. Please see our website procaststoneveneer.com for more information, stone styles and stone blends.
